in Health Care

Our Commitment to Quality

MEDECO manufactures high quality medical disposables for single use in conformance with the established quality management system with specific procedures and standards. MEDECO will continuously seek to satisfy customer requirements and expectations through the implementation of quality systems and procedures designed according to the ISO 9001:2000, GMP, ISO 13488 and EN 46002 specifications.

MEDECO will impart knowledge and provide training to ensure that the quality policy is understood, implemented and maintained at all levels in the organization.

MEDECO will effectively manage communication, within and outside the organization, in order to meet the quality objectives.

MEDECO's quality policy and objectives are reviewed annually for effectiveness.

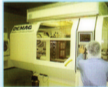

About Us

Abu Dhabi Medical Devices Company (MEDECO) is a member company of the ADNIP Group of Companies. Situated in the Mussafah Industrial Area, Abu Dhabi, MEDECO is engaged in the manufacture of high quality AD (Auto-Disable) syringes and other medical devices, using state-of-the-art facilities and technology provided by Pharmaplan GmbH, Germany. Established in 2000, MEDECO has proven to be a reliable source of high quality products for medical care in line with its mission to offer only the BEST products and services to the medical community.

As a member of the International Association of Safe Injection Technology (IASIT) and an ISO 9001:2000 & GMP certified company, MEDECO is dedicated to provide safe, efficacious and cost-effective healthcare products of consistent quality that conform to international standards.

MEDECO is active in more than 30 countries throughout the Middle East, Africa and Far East through its exhaustive network of agents and distributors.

***The First WHO Approved

1 ml Insulin syringe with fixed needle

Special Features:

- Plunger and barrel made from medically grade polypropylene
- Imported needle from reputable suppliers
- Individually blister packed
- Sterilized by ETO
- 5 years shelf life
- Non-pyrogenic, non-toxic
- Smooth plunger movement
- Highly transparent barrel

3 Parts Luer Lock Syringes

5 ml syringe 3 parts luer lock

2/3 ml syringe 3 parts luer lock

1 ml Insulin syringe with fixed needle

Special Features:

- Plunger and barrel made from medically grade polypropylene
- Imported needle from reputable suppliers
- Individually blister packed
- Sterilized by ETO
- 5 years shelf life
- Non-pyrogenic, non-toxic
- Smooth plunger movement
- Highly transparent barrel

2 Parts Luer Slip Syringes

5 ml syringe 2 parts luer slip

2/3 ml syringe 2 parts luer slip

Special Features:

- Plungers & barrels are made from medically grade polypropylene
- Clearly marked graduation in 0.1ml
- Imported needle from reputable suppliers
- Individually blister packed, peel off apart
- Sterilized by ETO
- 5 years shelf life from the date of sterilization
- Non-pyrogenic, Non-toxic

IV Sets

Standard Infusion giving set

Special Features:

- Macro drip chamber with or without filter fluid 15 micron
- Sharp piercing spike
- Precision - roller clamp
- Flash back injection port
- Luer slip connector with cap
- Kink resistant tubing
- Needle made from stainless steel
- Sterilized by ETO
- Pyrogen free, non toxic
- Individually blister pack, peel off apart
- 5 years shelf life from the date of sterilization

MEDEFLOX IV Cannulae with Injection Port

Sterile, non-toxic, pyrogen free IV Cannulae with PTFE Catheter for continuous peripheral intravenous infusion.

Size in Gauge	Colour Code	Catheter		Catheter length mm	Water FlowRate ml/min.

16	Grey	1.3	1.7	45	180
17	White	1.1	1.5	45	125
18	Green	0.9	1.3	45	80
20	Pink	0.8	1.1	32	54
22	Blue	0.6	0.9	25	33
24	Yellow	0.5	0.7	19	13

Special Features:

- 3 facet Japanese Needle point to reduce penetration force
- Special tapered and kink resistant catheter to ease vein puncture with minimum trauma
- With luer lock plug
- Injection port with silicon valve for intermittent medication
- Angled wings offer easy fixation and cannulation

Our Successful Partnerships

Pharmaplan International GmbH

Pharmaplan International GmbH, a member of the Fresenius ProServe Group, has been a worldwide service provider for the pharmaceutical and medical device industries since 1974. With a staff of 500, the company has built more than 100 turnkey plants across the world - handling consultation and planning through supply, start up and commissioning, training - all tailored to its customer's needs.

The focus of the company's activities is on production technology for the manufacture of pharmaceutical active substances, biotechnological process, sterile and non-sterile drugs and for medical single use articles.
