

# Power Generation

## Welcome to AEG Power

AEG Power Solutions helps customers worldwide meet their power challenges with innovative, world-class power solutions. The group offers a full-range of premium, cost effective solutions, from power conversion modules and high reliability UPS systems to industrial chargers and DC systems, renowned for their reliability, especially in extremely challenging industrial and climatic environments.

From the introduction of the world's first single-phase and three-phase thyristor AC converters during the 1960s through the launch of the innovative Thyrobor PI power supply for polysilicon production lines and the remarkably efficient Protect PV.250 Inverter for solar plants, AEG Power Solutions engineers have consistently brought innovative power solutions to market.
