

Welcome to Electro Industries

A brief profile of our activities is given below. Electro Industries group of companies is professionally managed by a team of highly qualified, experienced and dedicated personnel, having significant expertise in their respective spheres of activities. The Exhibition Division of ELECTRO Industries is equipped with the most technically advanced machinery - capable of producing computer graphics, photographic work, metalwork and carpentry. Designers using the latest computer technology create stunning individual stand designs, which we can manufacture in house. We also stock a number of the latest modular systems, which enable us to offer standard shell schemes at highly competitive price. Our team of highly skilled project managers, designers and technicians are dedicated to ensure every project is produced to the highest standards.
